

User Flow & Pages Specification

This document defines the complete user flow and page structure for the platform. It is intended for the Frontend team to design UI screens based strictly on the existing database schema. The platform provides free courses and job applications. No payments are involved.

1. Authentication Flow

Login Page

Users can log in using either email or username.

Inputs:

- 1 Email OR Username
- 2 Password

Signup Page

New users must provide the following information:

- 1 Full Name
- 2 Username
- 3 Email
- 4 Phone Number
- 5 Password
- 6 Confirm Password

2. Home Page

After successful login or signup, the user is redirected to the Home page.

The Home page contains two main actions:

- 1 Browse Free Courses
- 2 Browse Jobs

3. Courses Flow

Courses List Page

Displays all available free courses.

Displayed data per course:

- 1 Title
- 2 Category
- 3 Level
- 4 Instructor
- 5 Duration (hours)
- 6 Total Videos
- 7 Short Description

Course Details Page

A summarized overview of the selected course.

Displayed data:

- 1 Title
- 2 Full Description
- 3 Category
- 4 Level
- 5 Instructor
- 6 Duration (hours)
- 7 Total Videos

Primary action: Enroll

Course Content Page

Accessible after enrollment.

Page layout:

- 1 YouTube video player
- 2 Playlist videos list
- 3 Mark as Completed button per video

Progress is calculated based on completed videos.

4. Jobs Flow

Jobs List Page

Displays all available job listings.

Displayed data per job:

- 1 Job Title
- 2 Company
- 3 Category
- 4 Type
- 5 Location
- 6 Experience Level
- 7 Salary Range

Job Details Page

Detailed view of the selected job.

Displayed data:

- 1 Job Title
- 2 Company
- 3 Job Description
- 4 Requirements
- 5 Location
- 6 Experience Level
- 7 Salary Range

Primary action: Apply Now

No additional form is required. The application is submitted using the user's profile data.

5. Profile Page

The Profile page contains the following sections:

- 1 Personal Information (name, username, email, phone, summary)
- 2 CV upload and view
- 3 Enrolled Courses with progress
- 4 Applied Jobs with application status

6. Global UI Guidelines

- 1 Simple and clean UI
- 2 No price displayed anywhere
- 3 Minimal steps for user actions
- 4 Clear buttons and actions
